

# Finishes

Lapalma srl si riserva il diritto di apportare modifiche tecniche e dimensionali e di introdurre miglioramenti che potrebbero cambiare l'estetica dei prodotti presentati in catalogo. I riferimenti colore stampati non sono vincolanti.

Lapalma srl reserves the right to alter the technical and dimensional specifications given in this publication and to introduce improvements that may change the aesthetics of the products shown in this catalogue. The printed colours hues are not binding.

Lapalma srl behält sich das Recht vor, jederzeit Veränderungen an den technischen Details und den Dimensionen der Produkte vorzunehmen und Verbesserungen einzuführen, die die Ästhetik der Produkte verändern können. Die Farbtöne der Abbildungen können von den tatsächlichen Farben der Produkte abweichen.

Lapalma srl se réserve le droit d'apporter des modifications techniques et de dimensions ainsi que d'introduire des améliorations qui peuvent changer l'esthétique des produits présentés. Les tonalité imprimées n'engagent pas la société.

Lapalma srl se reserva el derecho de cambiar tamaños y especificaciones técnicas de los productos listados en esta publicación, así como el de introducir mejoras que puedan cambiar la estética de los mismos. Por favor tengan en cuenta que los colores de los tejidos mostrados en fotografía no son totalmente fidedignos.

# FABRIC

TESSUTO

We select fabrics that adorn the Lapalma collection by applying the criteria of softness, quality and resistance. With their yarns and textures, they offer Italian style that crosses boundaries, leading to emotions in all environments where they are included. To guarantee high performance, we select fabrics with abrasion resistance starting from >50,000 Martindale (many exceed even 100,000 cycles), fire-resistance and light resistance.

## Fabric categories

The fabrics are classified according to separate categories of price bands. The range of materials used includes 100% polyester Trevira, mixed wool, technical yarns such as polyamide, as well as 100% virgin wool. The range also includes Iris fabric made of 100% recycled PET.

## Customer fabric

Thanks to our tailoring skills, we can provide a customised service. We can upholster the products you choose with customer fabric. You just need to send us an A4 size sample so we can verify feasibility. If accepted, we will ask for a length of fabric in order to make a trial upholstered element. A surcharge will be made for patterned fabrics.

# SOFT-LEATHER/LEATHER

**PELLE/CUOIO**

## **Soft - leather**

Featuring softness and elasticity, all the leather chosen by Lapalma is of European origin, chrome-tanned, pigmented, corrected top-grain and aniline top-grain. It has excellent colourfastness and complies with the main fire-resistance tests such as CigaretteTest EN1021.

## **Leather**

The hide upholstery of our furniture has an impressive thickness of 2 - 2.5mm. This natural pigmented material is resistant to rubbing and has excellent lightfastness.

# LAMINATE

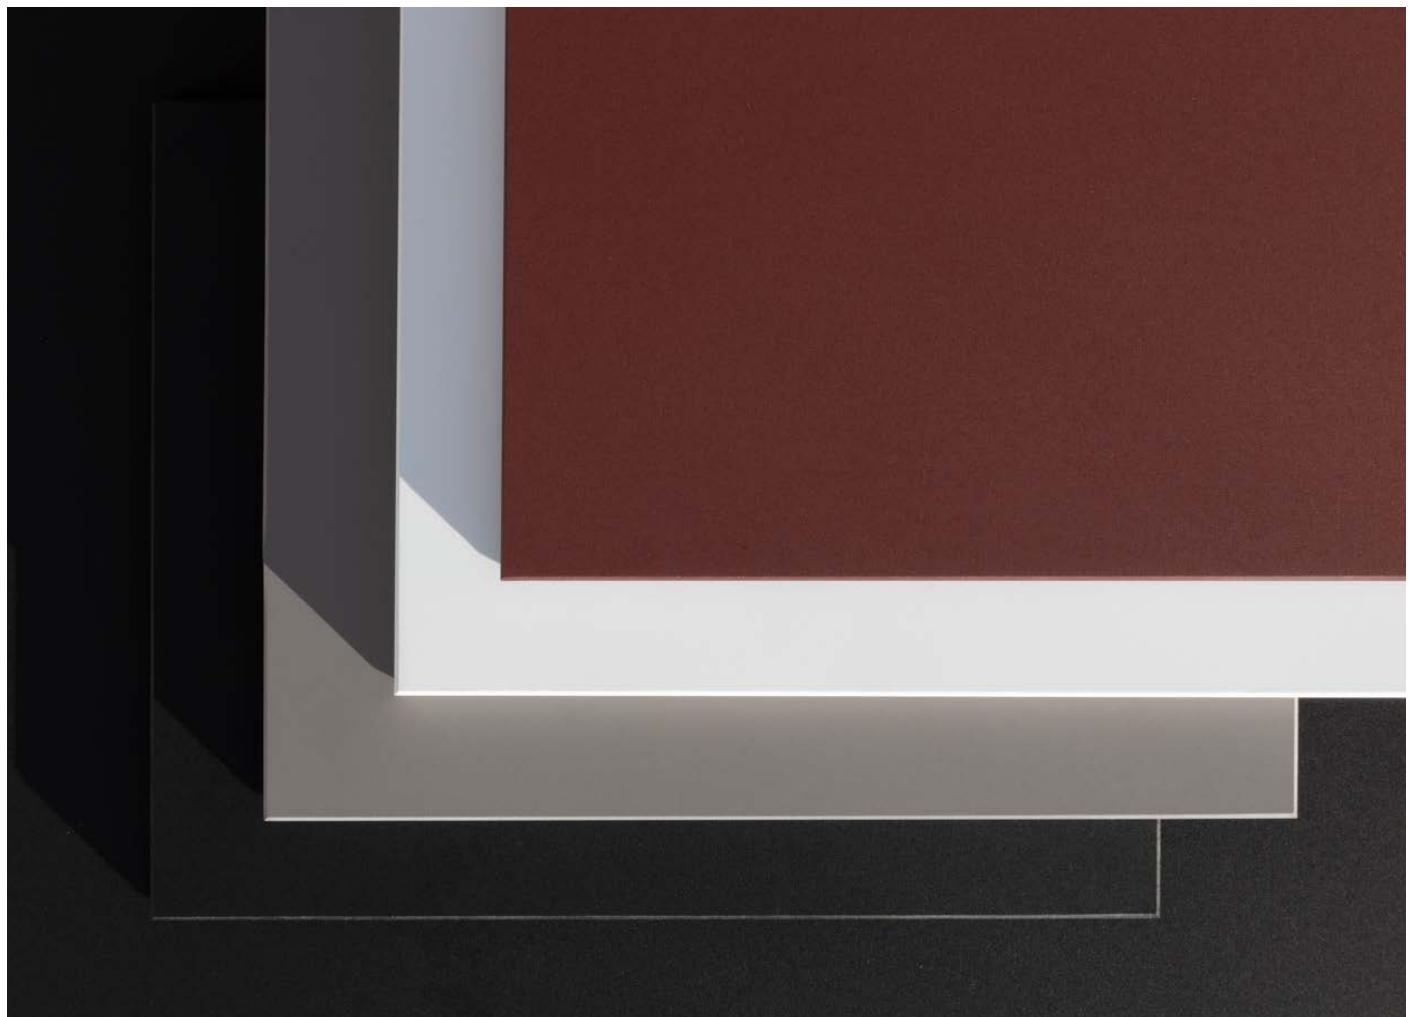

## LAMINATI

### HPL

High pressure laminate, or HPL, consists of layers of paper impregnated with phenolic and melamine resins, which are bonded together with a high-pressure and heat-protective coating and then applied to a substrate. The resulting surfaces are easy to clean and maintain, lightfast, odourless and resistant to alcohol, organic solvents and water.

### Fenix®

Fenix® is a high-performance material, highly resistant, fingerprint proof and soft to the touch, it has a slightly matt surface that results in low light reflectivity. It consists of cellulose and innovative resins. Made of 70% layers of paper, the inner layers are impregnated with thermosetting resins, whereas the outer layers are treated with new generation acrylic resins, all subjected to heat and pressure at the same time.

# WOOD

## LEGNO

Lapalma primarily selects European oak, ash and Canaletto walnut certified according to the main Chain of Custody control standards (FSC). Sliced logs are directly inspected at our cutters' yards: the process of selecting and choosing the best pieces is entrusted to the experience of our employees, who then process individual sheets to obtain semi-finished products for Lapalma's end products.

At Lapalma, all the stages involved in the processing of wood products combine complex industrial technology with craftsmanship and experience. The outcome is a natural product that is controlled yet never identical, a natural wood type.

We use only matt open-pore acrylic varnishes to protect our wood finishes. They make products resistant while preventing any changes in the naturalness and aesthetic variety of this living material. Lots may therefore vary in colour and grain. This is not to be considered the result of faulty production but a value-added feature and a guarantee of the naturalness of our products.

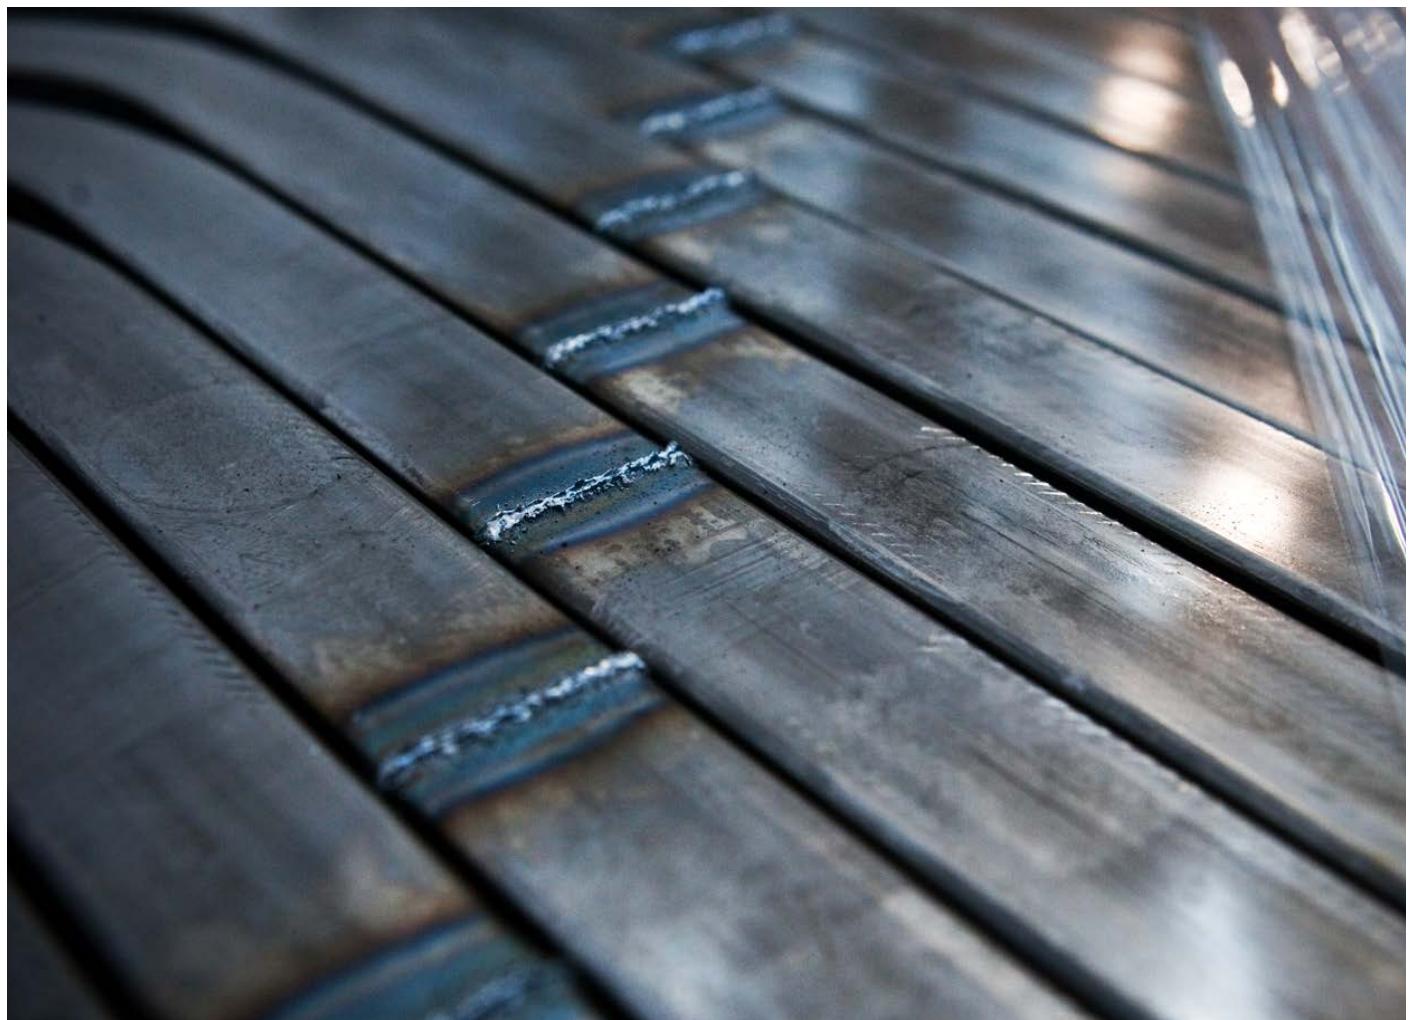

# METAL

## METALLO

Working with metal, as well as wood, is in our company's DNA. All metal components are made of partly recycled and totally recyclable alloys such as carbon steel, stainless steel and aluminium. All die-cast aluminium components are made of 94% recycled aluminium, which is then infinitely recyclable, whereas extruded profiles are made of primary aluminium. We use AISI 304 stainless steel, a stainless steel alloy, which is resistant to most aggressive agents and is finished with fine glass bead blasting.

The colour range of our metals consists of polyester powder coatings featuring a high degree of surface coverage, excellent resistance and good protection for products.

# PLASTICS

**PLASTICHE**

The materials we use to give shape to our furnishing elements include various types of high-quality plastics, selected for their high-performance. Lapalma has always been committed to reducing its use of plastic materials, bearing in mind, however, that plastic is not considered a material harmful to the environment when used for furniture that is intended to have a long life and then be recycled at the end of it. This is why the most widely used plastics are polypropylene and polyurethane, both recyclable. Some of our single-structures are made of moulded Baydur, a structural rigid polyurethane that is recyclable and has superior mechanical properties.

## **Recycled polypropylene**

We have also introduced 75% - 85% recycled polypropylene to our collection. It is obtained from recovering plastics from separated waste collection processes. We have decided not to process it with other colours in order to make it recyclable at the end of its life.

# MARBLE AND CONCRETE

**MARMO E CEMENTO**

## **Marble**

The Lapalma collection includes white Carrara marble and matt black Marquina marble. As marble is a natural material, each product made of marble has a unique colour and texture.

## **Concrete**

All cement bases are cast by hand into a mould with artisan care, each item is a unique piece: fibre-reinforced, finely sandblasted, with additives added to make it resist even the most common staining agents.

UNI EN 1021-1 No ignition

UNI EN 1021-2 No ignition  
BS 5852/0 cigarette test No ignition  
BS 5852/1 match test No ignition

### Care

For a normal cleaning we suggest to dust with a soft and dry cloth. Any stain can be removed using a damp cloth and delicate cleaning products such as a neutral soap or detergent. Do not wipe the surface but just buffer from the edges to the stain centre. It is absolutely forbidden to use abrasive or aggressive products such as solvents, stain removers etc. Do not use steam. For the most resistant stains contact the supplier. Avoid placing leather in direct sun. Keep the leather away from the direct heat.

**Leather is a natural material therefore small imperfections cannot be considered quality issues but peculiar characteristics of the materials.**

Adhesion of finishing
UNI EN ISO 11644 >15 N/10mm
Flex resistance
UNI EN ISO 5402
20000 cycles no damages
Taber abrasion
500 cycles CS10
load 500 gr. 4-5 grey scale

### Care

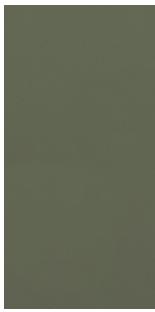

Dust with a soft and dry cloth for the normal cleaning. Stains can be treated with a wet cloth or cotton wool and with products for the cleaning initially more delicate like neutral soap or cleansing milk. Dry immediately after treatment. Never use abrasive or aggressive products like solvents, stain removers. Never steam it. Don't use shoe cleaning products. When a new product is used for cleaning, apply it in a "hidden" area to test its effectiveness and to avoid damages where more visible. Avoid placing leather near direct sun. Keep the leather away from heat sources. Dust regularly with a soft and dry cloth.

Samples are purely indicative because of natural inconsistencies that occur in the raw materials. As a result there may be small differences in the product delivered.

polypropylene

### Application

Indoor and outdoor use.

### Description

Recycled polypropylene is obtained thanks to a recycling process using up to 75% - 95% of recycled material.

### Care

Dust with a soft and dry cloth for the normal cleaning. Never use abrasive or aggressive products like solvents, acid or basic solutions or ammonia. Any liquid spilt on the product must be wiped up immediately. Any changes in the surface and in colours may occur under particular conditions of weather exposure and cannot be considered a quality issue.

Samples are purely indicative because recycled polypropylene color can vary widely from grey to a lighter color.
